EBS ValveDrive

"Class A" Tube Overdrive/Preamp Pedal

EBS ValveDrive offers the possibility for classic and traditional warm tube sounds up to hard and pure tube distortion.

Sing or Scream!

The EBS ValveDrive tube preamp/overdrive pedal can make your bass either glow or growl, whether you want your instrument to sing or scream.

The EBS ValveDrive delivers everything, from classic tube warmth to hard and pure tube distortion.

The design in steel, chrome and Bakelite is based on a classic concept with an easy dial-in design.
