

NEW PRODUCT INFORMATION

NEO-110 and NEO-112 Professional Neodymium Speaker Cabinets.

This new series of super compact and robust high power loudspeaker cabinets is designed for the no compromise bass player who wants portable yet versatile cabinets for every venue.

Using newly developed Neodymium high power lightweight speakers, these cabinets only weight 11 kg (24 lbs.). A fader controls the level for the 2" titanium tweeter with precision.

The cabinets are tiltable in two directions, either standing or laying, for great flexibility on stage or in the recording studio.
